Whom It May Concern:

This letter is my personal recommendation for the Umbrella company. I have been working with Umbrella for almost a year now. I found Umbrella successful in working with us in many development projects that incorporate, but not limited to, PHP, Word Press, CSS, MySQL.

From the time we started working with Umbrella, I was impressed with their drive and determination. Umbrella has been client oriented, readily available, is instrumental in the planning stages of projects, detailed in security of web sites, complete tasks and delivers on-time. What started out as a short term, 1 project task. Has developed into an on-going relationship I can trust with multiple projects.

I highly recommend the Umbrella company for hiring.

Sincerely,

Melanie McClusky
President
