April 21, 2021

**To Whom It May Concern:**

We hired Umbrella IT because we needed a highly qualified development team to build our applications and microservices system.

Umbrella IT provided us with expert advice and qualified work to meet the software requirements. We have built a confident relationship with the Umbrella IT team, their level of technical and support qualification is outstanding.

Throughout the projects they have met tight deadlines, accommodated last minute changes and delivered high quality results that met all stakeholder needs. Also we have found very helpful the detailed works of the team on the QA side.

Feel free to contact me directly on the details below and I will provide you with a personal reference for Umbrella IT company.

Yours faithfully,

A handwritten signature in red ink, appearing to read 'Jac Wong', written in a cursive style.

Jac Wong  
Head of Engineering
